

Course Proposal

Course	<i>PHP – Hardcore Softcode</i>
---------------	--------------------------------

Course Details- Learn the PHP programming language. Who should attend – programmers of other languages, web designers,	Maximum Number of Students (eg: 8, 10, 15)	10
<p>PHP – one of the easiest languages to understand. It’s free, compatible, widely used, flexible and did I mention “Free”. If you were ever going to learn a language to help you automate your web site – this is the one. With a bit of SQL thrown in, we move towards specific projects, simple and not so simple. By the end you will have usable scripts to drop into any new or existing web page and knowledge to rewrite, write, modify or expand them. As an appendix, if time allows, we will cover installing Apache and MySQL on your computer to create your own test environment.</p>	No. of sessions	4, 6, 8
	No. of hours per session	4, 3 , 2 respectively
	Day/ Evening/Weekend	D/E/W
	Times
